Sculptura ST6

- Description: 3-Way Six 4" Tower Loudspeaker
- Woofers: Four 4" Polypropylene Cones
- Midrange: Dual 4" Polypropylene Cones
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 90dB
- Power Handling: 150 Watts
- Dimensions, mm (HWD): 1346mm x 292mm x 292mm (53" x 11½" x 11½")

Sculptura ST2

- Description: 2-Way Dual 4" Tower Loudspeaker
- Woofers: Dual 4" Polypropylene Cones
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 88dB
- Power Handling: 125 Watts
- Dimensions, mm (HWD): 1003mm x 292mm x 292mm (39½" x 11½" x 11½")

Sculptura SC2

- Description: 2-Way Dual 4" Satellite/Center Channel/LCR
- Woofers: Dual 4" Polypropylene Cones
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 89dB
- Power Handling: 150 Watts
- Accessories: Center Channel base, wall mounting brackets, table top base.
- Dimensions, mm (HWD): 660mm x 127mm x 127mm (16" x 5" x 5")

Sculptura LS210

- Description: Dual 10" 250 Watt Low Profile Subwoofer
- Active Woofer: Front Firing 10" Polypropylene Cone
- Passive Radiator: Front Firing 10" Polypropylene Cone
- Amplifier Power: 250 Watts
- Frequency Response: 32Hz-150Hz
- Accessories: 90 degree angle RCA-RCA cable
- Dimensions, mm (HWD): 453mm x 419mm x 266mm (19.5" x 16½" x 10½")

Sculptura ST4

- Description: 2-Way Quadruple 4" Tower Loudspeaker
- Woofers: Quadruple 4" Polypropylene Cones
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 89dB
- Power Handling: 150 Watts
- Dimensions, (HWD): 1207mm x 292mm x 292mm (47½" x 11½" x 11½")

Sculptura SC4

- Description: 2-Way Quadruple 4" Satellite/Center Channel/LCR
- Woofers: Quadruple 4" Polypropylene Cones
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 89dB
- Power Handling: 150 Watts
- Accessories: Center Channel base, wall mounting brackets, table top base.
- Dimensions, mm (HWD): 660mm x 127mm x 127mm (26" x 5" x 5")

Sculptura SS1

- Description: 2-Way 4" Satellite Loudspeaker
- Woofers: 4" Polypropylene Cone
- Tweeter: 1" Polymer Integrated Soft Dome
- Impedance: 8 Ohms
- Sensitivity: 87dB
- Power Handling: 100 Watts
- Accessories: Wall mounting brackets.
- Dimensions, mm (HWD): 275mm x 127mm x 127mm (10¾" x 5" x 5")

SCULPTURA SC MODELS

The Sculptura SC2 and SC4 are two of the most versatile speakers available today as shown in the below images. They are equipped with tabletop bases for easily placement on a flat surface like the TV stand. Remove them and use the supplied wall mounts to install them next to your flat screen in an LCR (Left/Center/Right) configuration. Or, when used as a center channel in tandem with Sculptura towers, use the provided cradle to hold it securely. Whatever your choice, the SC2 and SC4 will excel.

Tabletop and Center Channel Cradle Configuration

On-wall Configuration

SCULPTURA SERIES

For those who possess a contemporary taste in décor and an affinity for superior sound, the Sculptura series by Sinclair Audio is the perfect hybrid solution. Sculptura loudspeakers are technological marvels that develop dynamic, rich sound from their elegant, sculpted cabinets for a stunning home theater and musical experience. The unique combination of acoustic performance and gorgeous cosmetics makes the Sinclair Audio Sculptura series the future of home audio/video speaker systems.

TECHNOLOGY

Injection Molded Polypropylene Cones produce excellent waveform properties and tight tolerances to ensure every Sculptura driver meets Sinclair's performance standards. Cones are graphite, carbon and mica injected to create a very strong yet light driver material.

Polymer Integrated Soft Dome Tweeters feature strong magnets, ferrofluid and thermal protection to handle high power and maintain wonderful high frequency clarity. This tweeter sits in a faceplate that has been shaped and contoured to spread high frequencies horizontally throughout the listening area to guarantee great sound from anywhere in the room.

Planar Depth Radiators

Sheets of thin resin bonded wood fibers are heat formed, pressurized into planar radiators, and supported by dual surrounds. In the LS210 sealed cabinet, it provides the benefits of a tuned port without the noise caused by air turbulence.
