

THE SOUNDPAD

The Soundpad is the perfect sound and style solution to bring excitement to your music and movies like never before. It's very low profile so it fits unobtrusively under your TV, has elegant gloss end panels to match the TV, and is packed with convenient features to enhance the listening experience. It's got Bluetooth so you can send your music wirelessly, a bunch of inputs to connect your TV or source, and serious bass for the movie theater sensation everyone loves. Add it to your TV and start enjoying sound in style today!
